# S\_AWS\_01 Intro To Cloud And Iam

## Service: Lab 1:

BY Sabreen Salama

### AWS LAB1:

- 1- Create aws account and set billing alarm
- 2-
  - create 2 groups one admin and one for development
  - in the admin group it has admin permission , and in the development only access to s3
  - create admin-1 user console access and mfa enabled in admin group
  - and admin2-prog with cli access only and list all users and groups using commands not console
  - in the development group create user with name dev-user with programmatic and console access then try to access aws using it (take a screenshot from accessing ec2 and s3 console)
  - Also access cli using dev-user and try to get all users and groups using it

Required:

Screenshot from each group with users and permissions attached to it

Screenshot from using dev-user to access ec2 and s3 from console

Screenshot from listing users and groups using admin2-prog

Screenshot from listing users and groups using dev-users

## Overview [Info](#)

Budgets (1) <a href="#">Info</a>								<a href="#">Download CSV</a>	Actions ▾	Create budget
<input type="text" value="Find a budget"/>								Show all budgets ▾	< 1 >	<a href="#">⚙️</a>
<input type="checkbox"/>	Name	▲	Thresholds ▾	Budget	Amount us...	Forecasted...	Current vs. budgeted ▾	Forecasted vs. bud..		
<input type="checkbox"/>	My Zero-Spend Budget		🟢 OK	\$1.00	\$0.00	-	0.00%	-		

User groups (2) Info

A user group is a collection of IAM users. Use groups to specify permissions for a collection of users.

<input type="checkbox"/>	Policy name	Type	Description
<input type="checkbox"/>	AmazonS3FullAccess	AWS managed	Provides full access to all buckets via the AWS Management Console.

Storage

# Amazon S3

Store and retrieve any amount of data from anywhere

Amazon S3 is an object storage service that offers industry-leading scalability, data availability, security, and performance.

**Create a bucket**

Every object in S3 is stored in a bucket. To upload files and folders to S3, you'll need to create a bucket where the objects will be stored.

[Create bucket](#)

**Pricing**

With S3, there are no minimum fees. You only pay for what you use. Prices are based on the location of your S3 bucket.

Estimate your monthly bill using the [AWS Simple Monthly Calculator](#)

**How it works**

Introduction to Amazon S3

[Copy link](#)

eu-north-1.console.aws.amazon.com/ec2/home?region=eu-north-1#Home:

**Resources**

You are using the following Amazon EC2 resources in the Europe (Stockholm) Region:

Instances (running) 0	Auto Scaling Groups	Dedicated Hosts
Elastic IPs	Instances	Key pairs
Load balancers	Placement groups	Security groups
Snapshots	Volumes	

**Launch instance**

To get started, launch an Amazon EC2 instance, which is a virtual server in the cloud.

[Launch instance](#)
